

Andrey Villalobos Gómez - Software Engineer

(+506) 8888-7313 | [Email: avg2620@gmail.com](mailto:avg2620@gmail.com) | [Portfolio: andrey2620.github.io](https://andrey2620.github.io) | [LinkedIn: linkedin.com/in/andrey-villalobos-gómez/](https://linkedin.com/in/andrey-villalobos-gómez/)

Software Engineer with experience in Java (Spring Boot), .NET, and modern web applications.

Skilled in backend development, RESTful APIs, SQL/NoSQL databases, and Angular-based frontend development.

Passionate about automation, process optimization, Docker, Linux environments, and AI-assisted development. Currently completing a Bachelor's Degree in Software Engineering.

Academic Projects

CenfoEats – AI Recipe Generator Web Application (2025) **Developer and QA**

Developed a web application using a **locally executed AI model** (Ollama) to generate personalized recipes, avoiding risks associated with cloud-based AI. Implemented interactive frontend features in Angular, including a map-based recipe exploration view.

Veterinaria Moka – Veterinary Management System (2022) **Developer and QA**

Developed a system for appointment scheduling, patient tracking, and internal administration to improve service workflows and data organization.

Education

Universidad Cenfotec (2022–2023) Technical Degree: Software Development

Universidad Cenfotec (2023–2026) Bachelor's Degree: Software Engineering

Technical skills

- Languages: Java, JavaScript, C#, Python
- Backend: Spring Boot, .NET, Node.js (Express)
- Frontend: Angular, HTML, CSS, TypeScript
- Databases: SQL, NoSQL
- Dev Tools: Linux CLI, Codex, PowerShell, Git, Docker, Azure DevOps
- Concepts: OOP, SOLID, REST APIs, Clean Code, AI-assisted development

Soft skills

- Time management
- Problem solving
- Critical thinking
- Adaptability
- Active listening
